

Asbestos Related Services

Atlantic Testing Laboratories (ATL) offers quality asbestos related services in the areas of consulting, abatement project design, building surveys, management plans, operation and maintenance (O&M) plans, project monitoring and air sampling, and awareness training. Our goal is to provide complete and accurate data required to satisfy the project requirements, while striving to minimize project costs. We pride ourselves in our quality, professionalism, efficiency, and integrity.

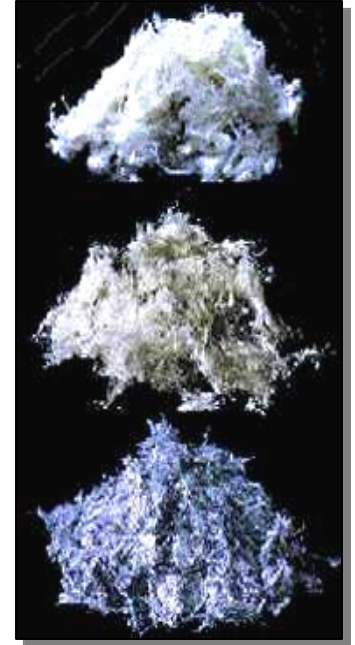

Consulting Services

- ◆ Assess the hazards posed by the presence of asbestos, and develop abatement design specifications and/or management plans
- ◆ Provide awareness training and recognition seminars
- ◆ Prepare and submit project specific variances
- ◆ Prepare comprehensive O&M Plans to manage in-place asbestos-containing materials in place
- ◆ Prepare AHERA Triennial Reinspection Reports

Technical Services

- ◆ Conduct asbestos building surveys prior to renovation and/or demolition
- ◆ Air and bulk sampling
- ◆ Provide project monitoring in conjunction with abatement projects
- ◆ Asbestos air monitoring and general indoor air quality services

Why ATL?

- ◆ Reputation for high-quality workmanship and responsiveness to client needs
- ◆ Detailed reports of field observations, methodologies, limitations, sampling results, and recommendations
- ◆ Extensive capabilities and staff experience facilitates efficient and cost-effective execution of asbestos consulting and testing services, from preliminary sampling and analysis to comprehensive remediation design

ATL is a full-service firm offering a comprehensive line of technical support services. These include special inspection services, subsurface investigations, water-based investigations, geotechnical engineering, construction materials engineering and testing, pavement engineering, nondestructive testing, stormwater pollution prevention planning, and surveying from our 11 offices.
