

Environmental Restoration and Brownfield Programs

Atlantic Testing Laboratories (ATL) assists municipalities, and other entities in community redevelopment by providing environmental consulting services for State and Federal cleanup and restoration programs. **ATL** assists in application completion, and performs site investigations and evaluations, and remedial design and implementation.

Community and Owner Benefits

- ♦ Economic development potential
- ♦ Aesthetic improvement
- ♦ Reduction of health and safety hazards, public health exposure
- ♦ Reimbursement available in some programs (up to 90%)
- ♦ Tax benefits available in some programs

Typical Environmental Restoration Projects

- ♦ Abandoned retail gasoline stations and/or petroleum bulk-storage facilities
- ♦ Abandoned and/or former dry cleaners
- ♦ Former industrial or commercial properties
- ♦ Properties with known or suspected environmental issues that are not currently marketable and/or developable

Why ATL?

- ♦ Full service capabilities in the areas of environmental investigation and remediation design, implementation, oversight, and regulatory reporting
- ♦ The most economical engineering solution that will satisfy the project requirements
- ♦ Extensive experience with subsurface investigations, remedial investigations and design, regulatory compliance reporting, and other related areas
- ♦ Broad range of in-house capabilities, coupled with the diverse expertise of the technical staff, facilitates efficient and cost-effective execution of all environmental project phases, from initial investigation and remedial construction oversight to project completion and site closure reporting

ATL is a full-service firm offering a comprehensive line of technical support services. These include special inspection services, subsurface investigations, water-based investigations, geotechnical engineering, construction materials engineering and testing, pavement engineering, nondestructive testing, stormwater pollution prevention planning, and surveying from our 11 offices.
