

# Nondestructive Testing Services

**Atlantic Testing Laboratories (ATL)** has extensive Nondestructive Testing (NDT) experience in the following applications: Structural Steel Construction/Rehabilitation of Buildings and Bridges, Storage Tank Construction, Aboveground Storage Facility Regulatory Compliance, Industrial Plant Maintenance, Pipeline Construction, Forensic Investigations, and Existing Structure Condition Surveys.

**ATL's** clients include governmental agencies, state transportation departments, contractors, primary metals producers, paper mills, utilities, consulting engineers, and educational institutions.

Services are performed in accordance with: American Welding Society (AWS), American Society of Mechanical Engineers (ASME), American Society for Testing and Materials (ASTM), American Petroleum Institute (API), American Water Works Association (AWWA), American Institute of Steel Construction (AISC), American Society of Nondestructive Testing, (ASNT), International Code Council (ICC), New York State Steel Construction Manual (NYSSCM), or Military Standards, as appropriate for the given project.

## ATL Offers:

- ◆ Ultrasonic Testing (UT)
- ◆ Magnetic Particle Testing (MT)
- ◆ Liquid Penetrant Testing (PT)
- ◆ Visual Weld Examination (VT)
- ◆ Welding Procedure Development
- ◆ Welding Procedure and Performance Qualification Testing
- ◆ Shop/Field Inspection of Structural and other types of Steel Construction
- ◆ High Strength Bolting Examination
- ◆ Aboveground Storage Tank Services
- ◆ Materials Evaluation, Forensic Studies
- ◆ Special Inspection
- ◆ Materials Research

**ATL** is a full-service firm offering a comprehensive line of technical support services. These include special inspection services, subsurface investigations, water-based investigations, geotechnical engineering, construction materials engineering and testing, pavement engineering, nondestructive testing, geoprobe services, stormwater pollution prevention planning, and surveying from our eleven offices.
