

ATL Releases Spring 2021 Webinar Schedule

Atlantic Testing Laboratories, Limited (ATL) has provided continuing education seminars for PDH credit for 15 years and we are excited to announce that the following seminars have been approved for online presentation. The seminars are intended to provide participants with an understanding of technical topics that will assist with their project needs. PDHs from ATL courses are recognized by most U.S. states including New York (ATL is a NYS approved Sponsor Organization).

SEMINAR SCHEDULE

Thursday, March 25, 2021 at 1:00PM EDT

Case Studies in Difficult Access For Subsurface Investigation Projects

Presenter: Tim Gavin

A presentation on overcoming the challenges associated with accessing difficult subsurface investigation locations safely and efficiently. The presentation will focus on Tidal water, deep water, side slopes, spillways, swampy areas, and inside building locations. (1 PDH)

Cost: **No Charge**

PRESENTER BIOS

Tim Gavin, Area Manager for ATL, Mr. Gavin manages the subsurface investigation division of Atlantic Testing Laboratories. He has experience in subsurface investigations and geotechnical engineering services, including land and water-based operations.

Brian Barnes, PE, Senior Geotechnical Engineer for ATL, is a licensed professional engineer in New York, Vermont, and Pennsylvania. He has 25 years experience in construction materials, geotechnical, and environmental engineering. Mr. Barnes has developed and provides seminars that are approved in New York for continuing education units/professional development hours and cover topics including geotechnical evaluations and Special Inspections in accordance with the NYS Building Code.

Steve Moore, PE, Senior Engineer for ATL, is a licensed Professional Engineer in New York, Massachusetts, and Vermont. He has over 15 years of experience with nondestructive testing (NDT) of construction materials, monitoring of construction vibrations, and quality assurance/quality control testing of construction materials.
